## ABOUT MELVIN MARK COMPANIES

Melvin Mark Companies has developed, owned, and managed property in Portland since 1945. Along with a current portfolio of more than 3 million square feet of commercial space in the Metro area, we also provide a full range of commercial real estate services for landlords and tenants. Our companies include Melvin Mark Capital Group, Melvin Mark Construction Company, and Melvin Mark Brokerage Company.

We have a respected reputation in the community; we are regarded as both a great place to work and for our philanthropic endeavors. We offer a competitive benefits package which includes medical/dental, professional development, parking, an annual TriMet pass and much, much more! Our 50-plus employees all enjoy being part of the Melvin Mark team. In fact, Melvin Mark employees have an average tenure of around 13 years! Interested in bringing your talents to one of the leading commercial real estate firms in Portland? Be sure to check us out at [www.melvinmark.com](http://www.melvinmark.com).

## JOB SUMMARY

The following job profile is designed to summarize certain essential information about a job or job category. It is not designed to be a comprehensive or detailed task list for any particular job or job category. This job or job category may have individual or multiple incumbents, each of whom may perform somewhat different specific job duties or tasks consistent with the general function of the job. Incumbents may be required to perform duties or support functions other than those listed on this job profile as needed. A job profile may be amended at any time with or without notice.

This high-level management position is ultimately responsible for a team comprised of Chief Engineers, Building Engineers and Maintenance Technicians, ensuring that the physical operations of our portfolio of properties attains high project performance, based on established goals and benchmarks.

## ESSENTIAL FUNCTIONS / PRIMARY RESPONSIBILITIES

Describe the key responsibilities of the job. Include the *essential functions* for which the job is accountable and denote with an asterisk. Essential functions are the core elements of the job which are specific and unique to this position and when removed changes the nature of the job itself.

### LEADERSHIP

- Manage, motivate, direct, and develop a team of engineers and maintenance tech professionals to achieve department goals
- Create the culture needed to enhance, promote and execute daily positive interaction among members of the team
- Ensure job responsibilities and expectations are clearly defined and communicated and performance issues are addressed in a timely manner.

### PORTFOLIO MANAGEMENT

- Oversee capital improvements, maintenance and repairs to buildings. Including all building systems – mechanical, electrical, plumbing, and structural. Make recommendations for preventative repairs and upgrades
- Stay abreast of current government issues, labor issues or code issues affecting the assets
- Responsible for assigned Life Safety tasks including key role in maintaining emergency preparedness protocols
- Respond and serve as emergency point person, when necessary
- Develop and monitor energy management program for portfolio
- Oversee the effective use of the tenant work order system by the team
- Stay abreast of latest technologies as related to building systems and equipment
- Create annual budgets that reflect clear and concise analysis and well thought out recommendations

### VENDOR MANAGEMENT

- Manage vendor relationships effectively to ensure service expectations and contract obligations are met and costs are within budget and/or opportunities for expense savings are achieved
- Competitively bid service agreements as necessary

## CORE COMPETENCIES

Describe the core competencies of this job. Include the *key characteristics or competencies* which are required to achieve success in this job.

- Must exhibit strong leadership skills
- Skilled at communicating with other employees and general public using tact, courtesy and good judgement
- Ability to understand and execute oral and written instruction, policies and procedures
- Talent for working under pressure
- Proficiency in working with and understanding building mechanical and control systems, operating schemes and control strategies
- Ability to identify, analyze issues, and develop and present recommendations
- Detail oriented and accurate

## KNOWLEDGE / EXPERIENCE / EDUCATIONAL REQUIREMENTS

- At least five years of experience managing a team of building engineers
- General knowledge of building codes, electrical standards (24-480v), water treatment standards, State labor laws (BOLI and OSHA), and building operation standards
- Demonstrated ability to communicate concisely using mechanical, electrical, plumbing and commercial construction terminology
- Ability to read and understand blueprints and associated design documents
- Proficient in Microsoft Word, Excel, Outlook and Energy Management System based software
- Electrical experience of three (3) years with safe handling of voltages up to 480 volts
- Have LBME or LME license, Universal Refrigerant Handlers license, Building Operators certification level 1 & 2 or BOMA SMA Designation
- Bachelor's degree is preferred

## JOB CONDITIONS

There is a high noise environment in mechanical room when chillers are operating. Some exposure to concentrated particulates during perimeter unit cleaning. Also, some extreme stretching, bending when inspecting perimeter units.

The individual in this position needs to move around a large office building, occasionally ascending/descending ladders, and moving a variety of items/equipment up to 50 pounds. This person must also be adept at communicating and exchanging information with tenants, co-workers and vendors. It is often important for this position to be exposed to outdoor weather conditions. The ability to keenly inspect tenant improvement jobs and work performed by vendors is a must.

This is an essential services position and, as such, this individual is often called upon to assist in the welfare of our tenants and the safety of our buildings in emergency situations, such as severe weather occurrences, etc. Working on-call evenings and rotating weekends are required

All building staff may be subjected to a separate security clearance/background check by Federal, State or Municipal tenants.

## HOW TO APPLY

Please send resumes and cover letters to:

**Kim Barnett, VP of Human Resources**

(No phone calls, please)
